

# Need Vertical Integration?

**FROM ENGINEERING DESIGN TO FINISHED ASSEMBLY  
WE'VE GOT YOU COVERED.**

Dynomax Inc. is a leader in value-added engineering and high-precision machining, injection molding and tooling for the aerospace, defense, medical, energy and transportation industries.

An ISO 9001, AS9100 Rev C and ITAR registered company, Dynomax has been providing contract manufacturing excellence for over 25 years. Our turnkey solutions give you simplified logistics, reduced costs and superior quality components.

- From design engineering and prototypes, to custom-kitted, dock-to-stock solutions.
- From raw material to finished product and assembled components.
- From small parts zero to 30 inches, to large parts up to 23 feet.

**PUT THE DYNAMAX TEAM TO WORK FOR YOU.
